

RESEARCH DOSSIER

Annual inflation each August

2024–2026: 51.97 → 31.51.

31.51 | %

What the data shows

01 What the data shows

02 Method and calculations

01 What the data shows

Annual inflation each August was 51.97 in 2024 and 31.51 in 2026, measured in %. The absolute difference is -20.46. The 3 observations show how the indicator evolved within the period. Annual change in August each year, not year-end inflation.

Figure 1 / Annual inflation each August

Annual change in August each year, not year-end inflation.

02 Method and calculations

Consider periods, units and coverage together. Indicators alone do not establish cause and effect.

Source and coverage

This research covers the stated period and does not replace subsequent releases. Sources checked: 7 September 2026.
